HKTS 9

The compact choice for 5.1-channel home theatre sound

Specifications

Harman Kardon® HKTS 9

You don't need a cavernous hall to enjoy great movie sound at home. The Harman Kardon® HKTS 9 speaker package is compact enough to fit comfortably in even modest-sized rooms, but it delivers the kind of high-impact, 5.1-channel sound that you associate with your favourite cineplex. Engineered for optimal performance, the dual midrange centre speaker, powerful satellites and down-firing, 200-watt powered subwoofer work together to envelop you in a realistic, 360-degree soundscape that includes plenty of deep, satisfying bass. With all the colour-coded wiring and wall brackets you'll need for virtually any installation, the HKTS 9 takes the complexity and guesswork out of the home theatre equation.

Highlights

Engineered to work as a system
Components are designed to work together for optimal performance

Voice-matched speakers
The four identical satellites are voice-matched to the centre speaker for consistent sound from speaker to speaker, creating a more realistic 360-degree soundstage

Dual midrange centre speaker
The centre speaker employs dual midrange drivers for clear, distinct movie dialogue

200-watt powered subwoofer
Fast-moving, 8-inch (200mm) woofer delivers realistic, high-impact bass

Down-firing bass driver
Unlike conventional front-firing drivers, the HKTS 9's HKTS200SUB subwoofer interacts with the floor rather than nearby walls for improved bass quality

HKTS 9

The compact choice for 5.1-channel home theatre sound

Key Features

- Video-shielded speakers – centre-channel and satellite speakers may be placed near your TV without magnetic interference
- Colour-coded speaker wires – CEA® colour-coded wires match Harman Kardon A/V receiver terminals for foolproof setup
- Subwoofer phase, level and bass-boost controls – easily synchronise bass output with satellites, balance subwoofer volume, and tune bass performance for room acoustics and personal preferences
- Subwoofer line-level and LFE inputs – noise-free connections to virtually any A/V receiver
- Subwoofer auto on/off and external trigger connection – maximum energy savings with any electronic equipment
- Low standby power consumption – subwoofer meets new European guidelines (less than 1 watt)
- Wall-mount hardware – satellites may be mounted with wall-mount brackets (included)

Specifications

Speaker System

- Frequency response: 45Hz – 20kHz (–6dB)

SAT-TS7 Satellites

- Midrange transducers: 3" (75mm) cone, video-shielded
- High-frequency transducer: 1/2" (13mm) dome, video-shielded
- Impedance: 8 ohms nominal
- Recommended power: 10 – 80 watts
- Sensitivity: 86dB @ 2.83V/1 meter
- Enclosure Type: sealed
- Dimensions (H x W x D): 167mm x 100mm x 92mm (6-5/8" x 3-15/16" x 3-5/8")
- Weight: 0.6kg (1.3 lb)

CEN-TS7 Centre Speaker

- Midrange transducers: dual 3" (75mm) cones, video-shielded
- High-frequency transducer: 3/4" (19mm) dome, video-shielded
- Recommended power: 10 – 80 watts
- Impedance: 8 ohms
- Sensitivity: 86dB (2.83V/1m)
- Enclosure type: sealed
- Dimensions (H x W x D): 102mm x 241mm x 92mm (4" x 9-1/2" x 3-5/8")
- Weight: 1kg (2.2 lb)

HKTS200SUB Subwoofer

- Low-frequency transducer: 8" (200mm) cone
- Amplifier power: 200 watts RMS
- Enclosure type: sealed
- External trigger voltage: 3V – 30V AC/DC
- Dimensions (H x W x D): 353mm x 267mm x 267mm (13-29/32" x 10-1/2" x 10-1/2")
- Weight: 9kg (19.8 lb)
